JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

[Reports to the Supervising Surgeon-General Marine-Hospital Service.]

*Smallpox in Tennessee.*NASHVILLE, *March 3, 1896.*

SIR : Following is a statement of the occurrence of smallpox in Tennessee for the month ending February 29 :

In Memphis there occurred 19 cases of smallpox, all colored ; in Shelby county, 58 cases, 5 white and 53 colored, with 5 death resulting ; in Fayette county, 3 cases, all colored, with 1 death ; in Obion county, 3 cases, 1 white and 2 colored ; in Tipton county (near Mason), 27 cases, all colored ; thus making a total of 110 cases (6 white and 104 colored) in the State.

For the restriction and prevention of this disease, the usual precautions of isolation, disinfection, and vaccination were observed.

Very respectfully,

J. BERRIEN LINDSLEY,
Secretary and Executive Officer.

Smallpox in the United States as reported to the Supervising Surgeon-General Marine-Hospital Service, December 26, 1895, to March 3, 1896.
